Professional Summary

Full Stack Developer experienced in building scalable and responsive web applications using **React.js, Next.js, TypeScript, Node.js, and Express.js**. Skilled in developing **reusable UI components, RESTful APIs, JWT authentication, authorization, and role-based access control (RBAC)**. Experienced in **PostgreSQL and MongoDB database management and ORM** for **data modeling, associations, and CRUD operations**. Proficient in **TanStack Query and Redux** for **state management, API caching, synchronization, and application performance optimization**.

Technical Skills

Languages: JavaScript, TypeScript, HTML, CSS

Frontend: React.js, Next.js, Tailwind CSS, Redux, TanStack Query, Bootstrap

Backend: Node.js, Express.js, REST APIs, JWT, RBAC

Databases & ORM/ODM: PostgreSQL, MongoDB, MySQL, Sequelize, Mongoose

Tools: Git, GitHub, Postman, Vercel, Render

Work Experience

Callsmaster Services LLP

Oct 2025 - Present

Full Stack Developer

New Delhi, India

- Architected **15+ reusable UI components** for an enterprise tourism platform using **Next.js, React, TypeScript, and Tailwind CSS**, following SOLID principles and Clean Architecture, **cutting development time by 20%**.
- Developed **8+ RESTful APIs** using **Node.js, Express.js, and PostgreSQL** for taxi bookings, multi-filter search, destination data, and recently viewed functionality, applying query optimization and indexing to improve response times.
- Built the core City platform page from scratch, implementing modular layouts and dynamic data rendering across **5+ responsive breakpoints within an Agile/Scrum workflow**.
- Optimized state management using Redux and TanStack Query, implementing query caching and efficient data fetching to **reduce redundant API requests by 30%**.

Projects

ParkSpot CRM [Live](#) 

[Next.js, Node.js, Express, PostgreSQL, Sequelize](#)

- Built a full-stack parking management CRM with **booking, parking location, user management, search, sorting, pagination**, and real-time booking status workflows.
- Implemented **JWT-based authentication and role-based access control (RBAC)** with Admin, Manager, and Staff permissions, **securing 15+ API endpoints**.
- Developed a server-state driven dashboard with **cached API data, booking statistics, filtering, and synchronized CRUD operations** for efficient CRM workflows.

The Thai Tourism Platform

[Next.js, React, Express, PostgreSQL, TanStack Query](#)

- Built reusable **City, Product, and Attraction pages** using Next.js and React, delivering responsive interfaces across **10+ tourism sections**.
- Developed **Taxi Transfer REST APIs** with Express.js and PostgreSQL for booking, search, and transfer management.
- Integrated TanStack Query for server-state management and caching, **reducing redundant API calls by 30%**.

Movie X [Live](#) 

[Next.js, TypeScript, Tailwind CSS, TanStack Query, Redux](#)

- Built a responsive movie discovery platform with **trending, top-rated, genre filtering, debounced search, and detailed movie pages** using **Next.js** and public REST APIs.
- Implemented **Redux-based** wishlist and watch-history functionality with **localStorage** persistence for a personalized user experience.
- Developed reusable UI components and integrated **TanStack Query for API caching, server-state management, and optimized data fetching**.

Education

Bachelor of Computer Applications (BCA)

2023 - 2026

Delhi Skill and Entrepreneurship University, Delhi

CGPA: 8.9 / 10
